**About this page.** TTB F 5100.31 has no field for class/type designation, alcohol content or net contents — Item 15 asks for such information only where it is embossed on the container and absent from the labels. This page models the structured record held electronically, so the comparison described in the brief has a source. Whether COLAs Online in fact captures these fields is an open question for TTB (project-reference.md §8.7).
